Dear Parents

Re: Important Information on Scarlet Fever & Whooping Cough

The school has been informed of an outbreak of Scarlet Fever and Whooping Cough. At the moment both cases have been confined to individual children and neither child has attended school this week. In the interests of safeguarding all our pupils against a possible further outbreak, we have sought the advice of our local authority health team and while there is no immediate cause for concern, you may wish to find further information about both diseases on the HPA website: www.hpa.org.uk.

Naturally if your child is feeling unwell, please seek further medical advice. To ensure that the spread of germs is kept to a minimum we would ask you to keep your child off school for forty eight hours after the symptoms have cleared.

Please do not hesitate to contact school if you have any queries and we will do our best to help you. By working together we can ensure that, as far as possible, the contagion is minimized.

Yours sincerely

Linda Neely
Head Teacher
